EXPERIMENT ON PACKET CAPTURE

TOOL : WIRE SHARK

AIM :-

Capturing and analysing packets using WIRESHARK tool.

5.1)

Aim :-

Create a filter to display only TCP/IP packets, inspect the packets and provide the flow graph

Procedure :-

⇒ Select LAN connection in wireshark.

⇒ Go to capture → option

⇒ Select stop capture automatically after 100 packet.

⇒ Then click start capture

⇒ Search TCP packets in search bar.

⇒ To see the flow graph click statistics → flow graph

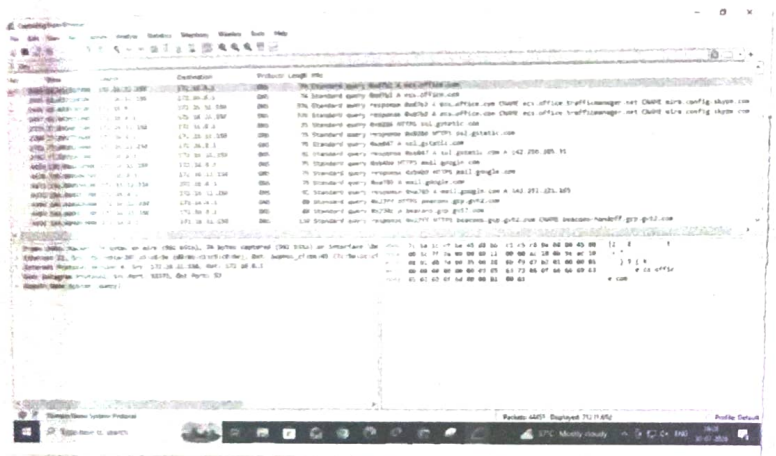

⇒ Save the packets

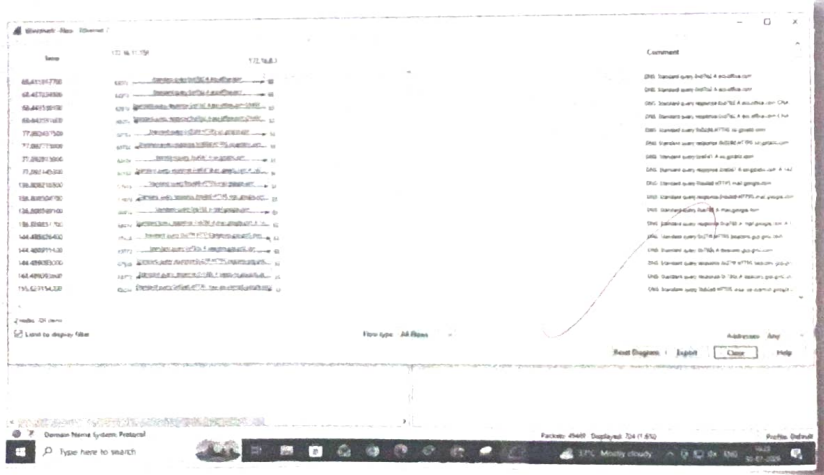

5.2)

Aim :- Create a filter to display only ARP packets and inspect the packets.

ARP

Procedure :-

→ Go to capture → option

→ Set stop capture automatically after 100 packets.

⇒ Then click start capture

⇒ Search ARP packets in search bar

⇒ Save the packets.

5.3)

Aim :-

Create a filter to display only DNS packets provide the flow graph.

Procedure :-

⇒ Goto capture → option

→ Select stop capture automatically after 160 Packets

⇒ Then click start capture

⇒ Search DNS packets in search bar.

⇒ To see flow graph click statistics → flow graph

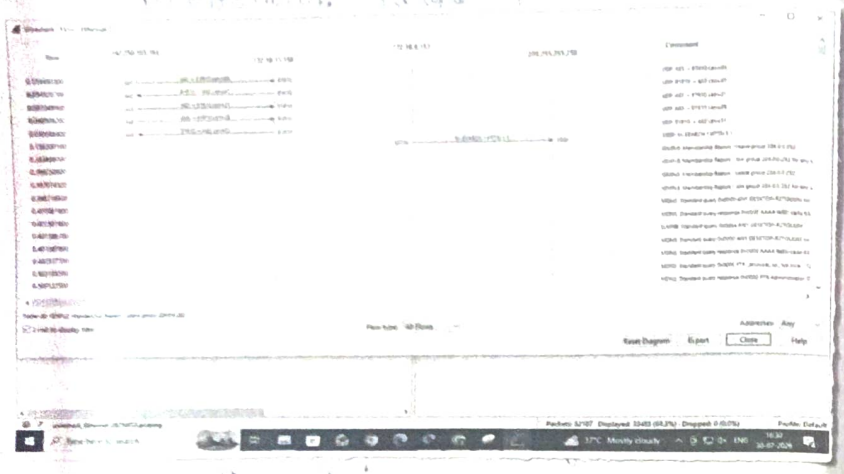

→ Save the packets

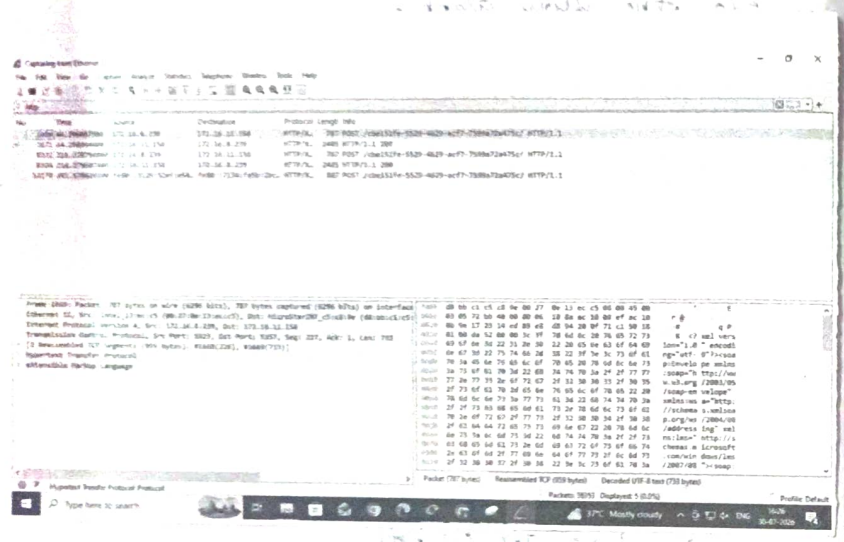

5.4)

Aim :-

Create a filter to display only HTTP packet and inspect the packets.

DHCP

HTTP

Procedure :-

⇒ Select LAN connection on Wireshark

⇒ Go to capture → options

⇒ Select stop capture automatically after 100 packets.

⇒ Then click start capture

⇒ Search HTTP packets on search bar.

⇒ Save the packets.

5.5)

Aim :-

To create a filter to display only IP/ICMP packet and inspect the packet.

Procedure :-

⇒ Select a LAN configuration on Wireshark.

⇒ Go to capture → options

⇒ Select stop capture automatically after 100 Packets

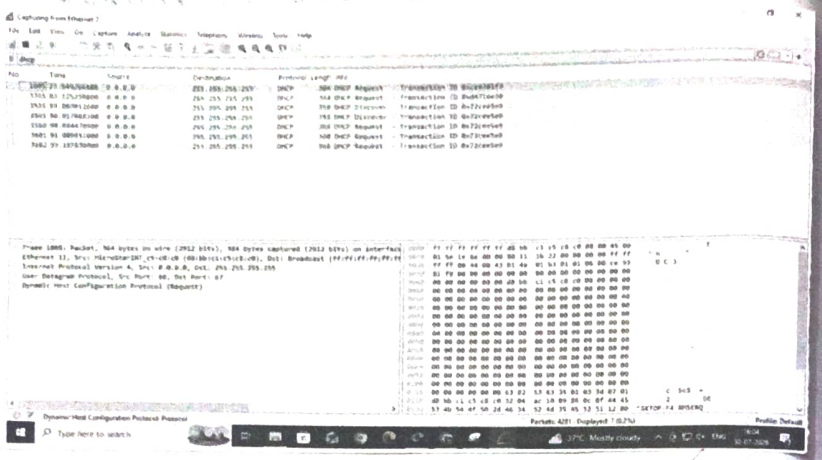

⇒ Click start capture

⇒ search for ICMP / IP packets on search bar.

5.6)

Aim :-

Create a filter to display only DHCP packets & inspect the packets.

Procedure :-

⇒ Select LAN connection in wireshark.

⇒ Go to capture → options

⇒ Select the stop capture automatically after 100 packets.

⇒ Then click start capture.

⇒ search DHCP packets in search bar

⇒ save the packets.

RESULT :-

Thus capturing & analyzing packets using wireshark tool has been executed successfully.
